

## SPLENDOR

of the Inaugural Ball in Washington  
Last Night was Bewildering.

Distinguished Men and Women

Army Officers in Glittering Uniforms, Governors  
of Several States, Supreme Court Judges,  
Senators, Representatives and Marcus  
A. Hanna Were All There.

Washington, March 5.—The culminating event of the inaugural festival was the inaugural ball, held in the auditorium of the pension office, with men and women distinguished in every degree of life touching elbows, dancing and laughing with the plain American. As a spectacular event it was paralleled in the history of the inaugural balls, in the sumptuousness of the decorations, and in the countless guests taking part in the spectacle. Mrs. McKinley wore a beautiful white gown for the occasion. Her all-gown made for Mrs. McKinley, it is high in the neck and long sleeves. Mrs. Roosevelt wore a very plain gown of heavy white tulle, embroidered in silver, made of tulle and finished at the hem with a deep quilling of lace. Mrs. Gage wore a handsome gown of white satin, with a deep quilling of lace. Mrs. Root wore a diamond necklace. Mrs. Root, in point of D'Alencon, diamond necklace. Mrs. Griggs, wife of the attorney general, white broadcloth, with bolero and skirt trimmed in silver embroidery and Mecklin. Mrs. Charles Emory Smith, wife of the secretary of the navy, wore a white gown, with a deep quilling of lace. Mrs. Hitecock wore the only colored gown in the ball. The party, a handsome crowd of men in white tulle, with garlands of white lace and beautiful ornaments. Mrs. Hitecock wore the only colored gown in the ball. WAGON LOAD  
of Fine Silks Hauled Away by Burglars  
at Niles, O., Last Night.

Niles, Ohio, March 5.—A gang of burglars got away with a wagon load of fine silks and jewelry from the store of Thomas, Hoffman and Casey. The loss will certainly reach one thousand dollars. The stolen goods were hauled away early this morning. After looting a dry goods store, the burglars blew the safe in Lowendorf's jewelry store and got away with a number of rings, gold watches, and some silverware. Lowendorf's loss, however, was not so heavy.

DISORDERLY GANG  
Which Came from Pennsylvania Con-  
demned by Washington Police.

Washington, March 5. The police say that the Pennsylvania militia, the most disorderly crowd that ever came to town. They broke up a saloon, insulted people on the streets and capped it all last night by shoot-

ing into a crowd and seriously wound-  
ing a little boy and girl, after which,  
they beat up 30 policemen, who tried  
to quell the riot. A provost guard  
had to be summoned as the police  
were entirely unable to handle the  
soldiers.

WORTH MILLIONS  
Which Must be Enjoyed by Strangers  
to the Former Owner.

New York, March 5.—The estate of  
George Francis Gilman, the tea store  
owner, who died at his home in Bridge-  
port, Conn., Sunday is said to be worth  
\$5,000,000. He owned 280 tea stores  
throughout the country, from which he

POLICEMAN'S HORSE  
Fell Under President McKinley's Car-  
riages Last Night.

Washington, March 5.—A police-  
man's horse got in the way of the  
president's carriage last night and fell  
under the wheels. Mrs. McKinley  
was nearly thrown from her seat.  
The president stepped from the car-  
riage to get her out of danger. The  
carriage was lifted over the horse  
and proceeded on its way to the ball  
but the shock caused Mrs. McKinley  
to leave early.

THE ACE OF SPADES.  
New York, March 5.—Andrew  
Daugherty, whose name has faced  
the world these forty years from the  
ace of spades, died yesterday at his  
home in this city, aged 75 years.

FIGHTING  
In the Philippines About  
Over.

An Occasional Volley Fired  
by Marauders,  
But These Attacks Are Constantly  
Becoming More Infrequent and  
Peace is Believed to be  
Near at Hand.

Manila, March 5.—It is believed  
that a Philippine government will be  
created in the course of a few months.  
The fact that there have been no in-  
surgent attacks for months except iso-  
lated instances of firing volleys into  
towns by marauders, and the rapid  
spread of peace sentiment in all direc-  
tions, are regarded as pointing to the  
virtual establishment of peace in the  
near future. Commissioner Wright  
presented the draft of a bill, which  
will doubtless pass the commission be-  
fore the week, establishing a depart-  
ment of insular constabulary.

MEMORY  
Of the Irish Martyr,  
Robert Emmet,

Honored by the United Irish  
Societies in Chicago.

Condemnation for the Memory of  
Queen Victoria and Praise for  
the Martyr Featured the  
Meeting.

Chicago, March 5.—Two thousand  
members of the United Irish societies  
attended the Robert Emmet celebra-  
tion in Central Music hall and heard  
condemnation for the memory of  
Queen Victoria and words of praise  
for the Irish martyr. The meeting  
was called to order by John F. Fin-  
erty of the United societies. He took  
occasion to remind the people that the  
Irish people still hated the English  
government, "whether at Dublin or  
Pretoria, Washington or London." Res-  
olutions in harmony with the general  
feeling of the meeting were adopted.

MOBBED  
Was Former Monk at Shank-  
lin, Isle of Wight.

Was Delivering an Anti-Catholic  
Speech When His Auditors  
Stormed the Platform.

London, March 5.—An infuriated  
mob at Shanklin, Isle of Wight,  
stormed the platform from which Vic-  
tor Ruthven, a former monk, was de-  
livering an anti-Catholic lecture.  
Ruthven drew a revolver and kept his  
assaultants at bay for a time, but finally  
turned and fled. During his flight a  
bullet was discharged from his revolver  
which traversed the neck and is-  
sued from the cheek of one of his pur-  
suers. Ruthven was arrested. The  
wounded man may recover.

THE WEATHER.  
Washington, March 5.—For Ohio,  
fair tonight and Wednesday, except  
occasional snow flurries along the  
northeastern lake shore; colder in  
northeast portion and temperature  
falling about 6 degrees in remaining  
portions of the state tonight.

## SHOT

Accidentally Explod-  
ed in the Mine.

Box of Powder

Let Go Suddenly With  
Fatal Results.

Five Men Were Killed and  
Two Others Were Seri-  
ously Injured.

A Man Who Was Standing at the  
Mouth of the Shaft Was Hurled  
Thirty Feet by the Force  
of the Explosion.

Joplin, Mo., March 5.—Five men  
were killed and two others seriously  
injured in a mine accident at the En-  
gelside zinc mine in Center Valley,  
eight miles east of Joplin. The dead  
are: Hase Foster, George Wilson, Wil-  
liam Buzzard, Fitz Morris, Ed Stoth-  
ard. The injured: William Daniels  
and John Burton.  
The seven men were in the mine  
cutting a drift from the main shaft.  
The five men killed were confined in  
the drift and the other two were in  
the main shaft. Two shots had been  
fired, but the whole charge failed to  
explode. Later a whole box of pow-  
der was sent down into the mine. One  
of the men accidentally discharged an  
unexploded shot and the box of pow-  
der was set off, resulting in terrible  
destruction. A man at the surface  
entrance of the mine was thrown 30  
feet in the air.

Child Mysteriously Missing.  
Brazil, Ind., March 5.—The citizens  
of Caseyville are greatly aroused over  
the mysterious disappearance of the  
3-year-old adopted daughter of Eli-  
sworth Sanders, a farmer living two  
miles east of that town. About 10  
days ago she disappeared and nothing  
has since been seen of her. About  
that time a neighbor claims to have  
heard the screams of a child near the  
Sanders house one night, and the fol-  
lowing day it was discovered that a  
large apple tree in the neighborhood  
had been dug up and reset. The peo-  
ple of Caseyville believe that the  
child has been killed and buried under  
the tree.

Cubans Demonstrating.  
Santiago de Cuba, March 5.—Senor  
Bravo, a delegate to the constitutional  
convention at Havana, on his return  
here was met at the wharf by an im-  
mense delegation with bands and ban-  
ners. In the course of an incendiary  
speech Senor Bravo condemned the  
proposals of the United States govern-  
ment and the crowd became frenzied,  
shouting "Down with the Americans!"  
The Cuban Libre prints an editorial  
attack upon the position of the Amer-  
ican government, accusing Washing-  
ton of bad faith. Many meetings were  
held to discuss the situation, and there  
was much talk of possible trouble.

Russia's Demands.  
Peking, March 5.—Russia having  
demanded a prompt ratification of the  
Manchurian agreement by Emperor  
Kwang Su, the Chinese government  
wired its ministers abroad asking for  
interposition. Great Britain, Germany,  
Italy, Austria-Hungary and Japan have  
threatened to take action against  
China if she permits Russia's dicta-  
tion. The Washington government,  
which is most friendly to Russia, may  
persuade her to forego a protectorate  
over Manchuria as a preventive of  
encroachments by other powers lead-  
ing to the disintegration of China.

Cumberland Presbyterians.  
Knoxville, March 5.—The encamp-  
ment committee of the synod of the  
United States Cumberland Presbyter-  
ian church, announces that the annual  
summer encampment of the church  
will be held at Monterey Park, Tenn.,  
Aug. 6 to 16. The committee of the  
Tennessee synod is now at work on  
the program for the encampment. It  
is expected that prominent Cumber-  
land Presbyterians from all over the  
country will be in attendance.

To Bid in the Road.  
Cleveland, March 5.—F. J. Listman  
& Company, bankers of New York,  
will represent a syndicate before the  
United States court at Toledo in fore-  
closure sale of the Detroit and Lima  
Northern railroad. The company in-  
tends to bid the road in and combine  
it with the Ohio Southern under the  
name of the Detroit Southern, with a  
capitalization of \$20,000,000.

New Railroad.  
Vicksburg, Miss., March 5.—One  
million dollars capital has been sub-  
scribed to build a railroad from Vi-  
cksburg, La., to Lake Providence, La.,  
to be known as the New Orleans, Natch-  
ez and Arkansas Railroad company.

SENATOR CHANDLER  
Secures a Fat Job With \$5,000 Per An-  
num as the Compensation.

Washington, March 5.—It was semi-  
officially announced today that ex-  
Senator Chandler of New Hampshire,  
has been appointed chairman of the  
Spanish claims commission with a  
salary of \$5,000 per year. His duties  
are to settle Spanish war claims.

INJURIES  
Sustained By a Fireman at Gas City  
Prove Fatal.

Gas City, Ind., March 5.—Albert  
Rothenghouse, a druggist and member  
of the Gas City volunteer fire depart-  
ment died last night as a result of in-  
juries sustained by falling walls dur-  
ing the fire Friday night of the Gas  
City pottery works. This is the second  
fireman who died from the disaster.

## GERMANY

Joins With Uncle Sam  
in the Policy

Against Land Grabbing in  
the Chinese Empire.

Concessions Made by the Chinese  
Government Must be in the  
Form of Treaties Signed  
by all Powers.

Berlin, March 5.—Ambassador  
White's conferences with the German  
foreign office are due to fuller and  
more definite instructions just re-  
ceived by him concerning the threat-  
ened land-grabbing in China. Germany  
agrees fully with the United States  
that no secret concessions should be  
made by China to any foreign power,  
but that all concessions should be  
strictly confined to grants for diplo-  
matic and ordinary commercial pur-  
poses, and made aboveboard and  
through treaties signed by all the  
powers.

## BRITISH

Are Now Quarreling  
Among Themselves.

Trying to Place the Blame  
for Dewet's Escape.

The Boer General Marched Five  
Miles a Day Faster Than the  
Flying Columns of the  
England Forces.

Colesburg, March 5.—The blame for  
General Dewet's escape is placed on  
the system rather than on the com-  
manders pursuing him. It has been  
impossible to direct the operations by  
telegraph and the feeling is that  
greater discretion should be allowed  
commanders in the field. General De-  
wet marched five miles a day faster  
than the swiftest British column. Al-  
though the Boers are now demoral-  
ized, it is believed they will quickly  
recover if allowed a few days' rest.

## TROTTING

Race to be Pulled Off for a  
Purse of \$60,000.

Owner of Boralma Challenges Own-  
ers of Crescents, Charlie Herr  
and The Abbott.

Boston, March 5.—Probably the  
greatest trotting race ever seen will  
be arranged this season for the largest  
purse ever hung up. Thomas W. Law-  
son, owner of the champion gelding  
Boralma, challenges the owners of  
Crescents, Charlie Herr and The Ab-  
bott to race Boralma against the three,  
each entry to subscribe \$10,000, the  
association holding the race to add  
a purse of \$20,000, making \$60,000 in  
all, the first horse to take \$40,000, sec-  
ond \$15,000, third \$5,000, all minor  
conditions to be arranged on a mutual  
basis agreeable to all.

A Night in the Treestops.  
Cleveland, March 5.—Four fish-  
men living on a small island at the  
mouth of Rocky river were compelled  
to spend the night in treestops as a  
result of a sudden rise of water and  
the inundation of the island. Three of  
the men were rescued. The fourth  
man, Michael Sadler, is missing, and  
is thought to have been drowned.

## TERRIBLE

Teddy, the Lion Killer, Takes Charge  
of the Gavel in the Senate.

With Impressive Ceremonies

The New Vice President is Inducted Into Office  
and the Senate of the Fifty-seventh  
Congress is Formally Called  
to Order.

Washington, March 5.—One of the  
most notable occurrences in the his-  
tory of congressional legislation mark-  
ed the closing hours of the last session  
of the senate of the Fifty-sixth con-  
gress. Senator Carter of Montana sig-  
nified his retirement from the senate  
after six years of brilliant service by  
talking the river and harbor bill to  
death. He occupied the floor, con-  
structively for nearly 13 consecutive  
hours, denouncing the measure as  
vicious and pernicious legislation. The  
final conference report on the sundry  
civil appropriation bill was agreed to.  
The bill, among other things, appro-  
priates \$5,000,000 to the St. Louis ex-  
position.

In retiring as the president pro tem  
of the senate, Mr. Frye, in response to  
a resolution of thanks for his courtesy  
and impartiality, delivered a brief but  
feeling address to the senate. At the  
conclusion of the session of the Fifty-  
sixth congress Vice President Roose-  
velt was sworn in and immediately  
called the senate of the Fifty-seventh  
congress to order. It was a simple but  
beautiful and impressive ceremony.  
The new senators were sworn in in  
groups of four.

## TWENTY-ONE YEARS

Sam Moser, the Amish Fanatic Will  
Serve for Murdering His Family.

Pekin, Ills., March 5.—Sam Moser,  
who killed his wife and three chil-  
dren, as he said, because the rules of  
the Amish church to which he belong-  
ed would not permit him to show any  
affection for them and that therefore  
they were better dead, was today sen-  
tenced to twenty-one years in prison  
for their murder. The case attracted  
extraordinary attention because of the  
connection of the Amish church and  
the peculiar practice of the sect. It  
was shown that for disobeying rules  
of the church, Moser was boycotted  
and the Amish people would not speak  
to him or sell him food, even before  
the murder was committed.

## VON BUELOW

Defines the Attitude of Germany as to  
Hostility to Russia.

Berlin, March 5.—In the reichstag  
today referring to the Russian criti-  
cism of the German duties on corn,  
Count VonBuelow said: "Protecting  
our own interests does not involve any  
thing hostile to the interests of others.  
I am convinced that the principal task  
of the German policy is to maintain  
friendly relations with Russia".  
This statement by Kaiser, chief min-  
ister is accepted on all sides as a de-  
claration that Germany will not pro-  
ceed to any grave length in backing  
England's protest against Russia's ac-  
quirement of control in Manchuria.

## HARD FIGHTING

Continues in South Africa and Many  
British Casualties are Reported.

London, March 5.—The latest news  
from Capetown shows that Gen.  
Dewet is still in the field with a force  
at his back. After leaving Cape  
Colony he started for Philippolis, some  
miles north of the Orange river and  
connected by telegraph with Coles-  
burg. The British pursued him so  
closely that he made for Fauresmith,  
an important point north of Phillip-  
olis. Several small parties of Boers  
have surrendered and others have  
been captured, and the indications  
are that many are disheartened and  
not inclined to make further resist-  
ance. Hard fighting still continues,  
however, and many British casualties  
are reported.

Harrison Has a Clear Field.  
Chicago, March 5.—There was no  
contest at the Democratic primaries  
held for the nomination of delegates to  
the city convention. Mayor Harrison  
will have a clear field for the nomina-  
tion. The nominations for city attor-  
ney and city treasurer will bring about  
a contest, as there are several candi-  
dates for both positions.

Employees Overcome.  
Pittsburg, March 5.—While working  
at the top of Carrie furnace of the  
Carnegie Steel company, two em-  
ployees, Paul Vilanack and Michael  
Bunwik, were overcome by the poison-  
ous vapors and fell to the platform  
below, dead.

On the Retired List.  
Washington, March 5.—Two promi-  
nent naval officers were placed on the  
retired list Monday by operation of  
law on account of age. They are Rear  
Admiral Philip C. Hichborn, who was  
chief of the bureau of construction  
and repair eight years, and Pay In-  
spector H. G. Colby, one of the rank-  
ing officers of the pay corps.

Jointists Warned.  
Wichita, Kan., March 5.—At And-  
over, Butler county, 12 miles northeast  
of Wichita, a meeting was held at the  
Methodist church at which resolutions  
were passed that if Wichita does not  
close joints selling liquor, 300 citizens  
of that town will come to Wichita and  
smash all the saloons.

**WEEK**

**In Fields of Crude Petroleum.**

**A Slight Stir**

**Noticed in the Business Generally.**

**Texas to Have a Refinery in the Vicinity of the Beaumont Well.**

**Late Tests of Texas Crude Cause Experts to Still Insist that the Oil Cannot be an Illuminant.**

There was a slight improvement in the feeling and general tone of business toward the end of the week, says the Toledo Times. The cold season seemed to receive a sudden check, furnishing hope of the speedy resurrection of the life of the wells that had been a dead issue for some time. Undoubtedly advantage had been taken of the fine condition of the roads to rush in material in many quarters, for in Ohio and Indiana there was a slight increase in the volume of new work in progress. The week remained without change in prices, and also without change of property to any great extent. The report of a new well in the Beaumont (Tex.) field was the cause of some anxious comment. The same question was again asked "What kind of oil is it?" That could be answered without the jury climbing out of the box. It is a heavy oil of 22 degrees gravity, with an asphaltum base—a fuel oil, with at the present time 25 cents a barrel, if you can find a buyer. But of course the first requirement is to obtain the well. In the present case the reports seem to be similar to many others that have been shipped to Texas of late. A Great Well. Another great well has been struck by the South Penn Oil company in the Salem field, in Harrison county, W. Va. It started with a yield of 3,000 barrels the first 24 hours. On Saturday evening it was still doing about 2,000 barrels, according to reports. This pool has attracted more attention of late than any other in the southwest region. Some time ago Gartland and others obtained a well that began with a production of 400 barrels, and by deeper drilling was increased to 1,000 barrels a day, and is still doing 250.

There are two sands found in this field, both of which have proven quite productive. The size of the new strike was a little surprising, as it was thought that Gartland had tapped the jugular. There is now a possibility that the confines of the pool have not yet been fully determined. The well may operate as an obstruction to the market in its march toward a dollar. The sands are known as the 50-foot and the Gordon. It makes but little difference in that country what sand the oil is found in. Any one of them is liable to furnish a spouter. This territory is situated on Indian Run, north of Salem.

Over in the Indiana fields Barnes & McDonald have a couple of late wells in Salamonia township, Huntington county, that started at about 50 barrels. The A. B. Elliot Oil company's No. 3, Elliot farm, made 40 barrels. They continue to drill wells in Nottingham township, Wells county, and from all reports from that region it is clear that a 10-barrel well could be termed a Texas geyser. In Hartford township, Adams county, Emerson Priddy's No. 2, McDowell farm, section 26, made a rattle of 60 barrels the first day. This species of wells, however, are considered in line with the best that Indiana possesses. A local paper re-

Address, F. T. Hendry, General Agent Passenger Department, 141 Griswold Street, Detroit.

Referring to a well that came in close to Geneva, on the west side of the town, states that it has a showing for a large producer. In its comments it compliments the owners on their great luck and fortune. The well, filled up while drilling in the sand with oil over the tools. This is the second well for that company, but owing to the large production it will have from the present strike, the work of drilling other wells will proceed with all haste. It is all owing to the man's early education whether he enjoys climbing mountain tops or the masts of a vessel that is seagoing. If these men had been educated in Ohio they would have been satisfied with nothing less than an Ohio well. As it is, the Indiana stripe seems to answer all purposes. But when they find a well in that state that has any stability it is heralded in a lively manner at from three to five times its capacity. The well of the Ohio Oil company on the Bird farm, in section 17, Washington township, Blackford county, that came in a few weeks ago at a little over 100 barrels a day, was at once reported by a Hartford city villain as the largest well in the world outside of Russia. Scores of such reports have circulated through the agency of fablemongers in that state, and while they may not have done serious damage, they have certainly not done the country any good. T. C. Neal, of Marion, Ind., states that his company, the Lugal Creek Oil company, will drill 10 wells in the field east of Marion three miles, as soon as possible after the opening of spring. Petroleum Exports Large. A telegram from Philadelphia says: There is a boom in oil exports from Philadelphia. Since January 1, 20 ships laden with crude and refined petroleum have sailed for Europe, two for Mexico, one for the far East, one for Havana and one for Nova Scotia. The total number of gallons exported in this time has been enormous, equaling the usual average for three months. The German ship Renec Rickmers arrived from Hull to take on the largest consignment of refined petroleum to Asia so far this year. It will probably consist of 100,000 cases, to be delivered in Hiojo, Japan. In addition to the Renec Rickmers the Rickmer Rickmers is expected shortly at the wharves of the Atlantic Refining company, and also the British ship Troop. Both of the latter will carry full cargoes of case oil to Japan. The European trade in oil has made a tremendous development during the last few months. Exporters say this is due largely to the partial failure of sources of supply in the newly discovered fields on the Black and Caspian seas, which for a time threatened serious consequences to the local trade. The clearance of the German tank steamship Manhattan for Venice illustrated forcibly that the quality of the Black sea product is not pleasing to consumers on the Adriatic, and that their trade will remain here. With the completion of the new United States pipe line plant at Marcus Hook this city will take the lead in exportation of oil over any port in the United States, if not in the world. The steamships August Korff, Bremerhaven, Bayonne, Etelka, Georgian Prince, Henry Rieth, LeLion, Lucigen, Mexicano and Oriflamme have already been chartered to sail at an early date for Europe with petroleum in bulk, in addition to the barks Alice of Isabelle, Frances Marie, Jules Henri, Queville, San Ignacio di Loyola and La Viguesa. Sale at Findlay. Pogue & Bicknell, of Findlay, have sold to A. N. Bryson and A. C. Bradley, of Wellsville, N. Y., and W. J. Petty, of Andover, N. Y., two leases in the Findlay field, with 16 producing wells, for the sum of \$50,000. The leases cover 120 acres of land on the Mitchell and Cory farms. The daily output is placed at 70 barrels net. There are three wells drilling. Everything goes as it stands. It is said that George Whitman went out to Findlay, Ill., to drill a wild-cat well. Everything went all right until a depth of 120 feet was reached, when a rock was encountered that positively

refused to be punctured. The hole will be abandoned. Tests of Texas Oil. Opinions differ as to the value of the product of the new Texan spouter but there seems to be a unanimity of opinion that it comes into competition with coal rather than illuminating stock. As to color and fire test it is of such low gravity and bad odor that under no condition could it be sold as such; that the low viscosity makes the distillate undesirable as a lubricant, and as a fuel the terrific odor of the crude would prevent its use in a popular center. In contradiction of these opinions an analysis of the oil by the State University of Texas, proves it to be of a very high grade, and is of the kind best suited for lubricating purposes. The result of the analysis, it is held, dispels all doubt of the commercial worth of the oil. As to its lubricating qualities there remains much to be learned. A test made by the Emery Manufacturing Co., of Bradford, is anything but flattering to the product, as the results lead to the expressed opinion that the benzine obtained, one and a half per cent, is so limited as to be unprofitable and so inferior as to be barred from general use; that as an illuminant, the distillate is all right. The crude is a very refractory article, strongly impregnated with sulphur, and when cooled to seven degrees below zero failed to show any traces of paraffine. It is an asphalt oil of very heavy gravity, and much inferior to the California product for fuel purposes. It contains more sulphur than Lima oil, and according to Mr. E. J. Quigley, of Oil City, even ranks far below the best grades of Russian oil. It is 23.3 gravity, and shows no signs of clouding or congealing at zero temperature. The crude oil flashes at 120 and burns at 180. The ultra favorable opinion as to the value of the new oil is that of Capt. James Tate, of Baltimore, who is quoted on an Austin dispatch as saying that the papers have not been doing this oil justice. "The oil is possessed of a very heavy body and closely resembles the West Virginia natural lubricating oil," said he. At a nominal cost it can be utilized for lubricating purposes, and as such is the most valuable oil which could be found. As a lubricating oil it is worth \$10 per barrel.—Petroleum Gazette.

**General Lyons Entertains Friends**

**In Honor of His Thirty-Seventh Anniversary.**

An Elaborate Banquet Served to Forty Guests—The Host Presented With Some Very Handsome Gifts.

George Lyons, the courteous and popular clerk at Alex Frankel's cafe, celebrated his thirty-seventh anniversary in an elaborate manner last night, banqueting about forty of his personal friends, and serving them with a repast both tempting and varied. In the meantime the host had not been forgotten, and when the guests had all been seated Mr. Frankel, who acted as toast master, introduced Hon. Charles B. Adkins, who, in a few minutes talk, which was full of witticisms, congratulated Mr. Lyons and presented him with several handsome gifts, including an elegant rocker, a pair of ebony, silver mounted military brushes and a garnet shirt stud. Although taken greatly by surprise by these substantial acknowledgments of friendship, Mr. Lyons was equal to the occasion, and proved himself not a whit abashed, or at a loss when it became necessary for him to rise to the response. He humorously referred to the demonstration at Washington, and added that when the day arrived that his own inaugural and his birthday were being celebrated as a double event he would choose from among those assembled his cabinet, and place the rest in the fated offices created by American politics. Remarks were made by several others, and the speeches were interspersed by solos and music furnished by Prof. Crum's orchestra. Flaxy Cunningham and Perry Valentine served the guests in true Delmonico style, and when the former appeared bearing a tray upon which rested a richly browned and decorated young porker, the applause was started which burst the bonds of formality, and everybody entered heartily into the spirit of the occasion.

Session Held by the Council.

The Only Stir

On the Surface of the Receding Tide

Caused by the Bill of J. C. Cronley for Inspecting the Sewer.

February Bills Allowed and Considerable Legislation Taken Up. Petition for Kibby Street Paving.

Compared with the recent preceding storms, last night's session of the city council was very tame, the only ripple that disturbed the surface of the receding tide being that which was occasioned by the discussion over the bill submitted by civil engineer J. C. Cronley. It will be remembered that Mr. Cronley served as one of the three men who inspected the recently constructed Timberlake sewer, and last night he presented a bill demanding the sum of \$50 for his services.

When the bill was read by the clerk Pete Scully moved to allow it. Mr. Shannahan, who so strenuously opposed the payment of the \$12,881.01 to contractors Green & Sons for extras on the Timberlake sewer, took a very decided stand also against allowing Mr. Cronley's bill. He declared that the demand made by Mr. Cronley for one day's services was simply too preposterous to talk about. A motion to refer the bill to the finance committee and solicitor was carried.

Petition for the paving of west Kibby street, from Main street to Oak street with brick was referred to the paving committee and was set for hearing on March 18th.

Petitions from west Grand avenue and Ewing avenue property owners for sewers were referred to the sewer committee.

Sewer committee recommended the construction of a 15-inch sewer from the east end of the present sewer on Bellefontaine avenue to the fair grounds. Adopted.

The building committee recommended that LeRoy Wheeler be employed to paint and paper the interior of the police station. Adopted.

Mayor's report of fines and licenses collected was received and filed.

Engineer reported that all but three lots on west Elm street, between West and Cole streets would stand assessments for the proposed improvement of that street, and that Cherry alley property would stand assessments for proposed improvement. The report was filed.

Bills aggregating as follows were allowed:

Bridge fund.....\$ 105 87  
Fire fund.....1,065 62  
General fund.....968 71  
Light fund.....1,238 71  
Police fund.....1,252 85  
Poor fund.....161 58  
Sanitary fund.....212 00  
Sewer fund.....3,752 76  
Street fund.....798 35

Total.....\$9,483 81

Resolution for the improvement of west High street, between Cole street and Woodlawn avenue, and west Grand avenue improvement ordinance were laid over for one week.

Ordinance for the improvement of west Elm street was passed. Adjourned.

## CLAIMS HE'S INNOCENT.

Pat Crowe Writes That He is a Fugitive From Justice.

Omaha, March 5.—Pat Crowe, one of the alleged abductors of Edward Cudahy, Jr., has written a letter to The World-Herald touching on the kidnapping and asserting his innocence. The letter contains nothing to indicate where its author was when it was written, but is postmarked "Denison, Iowa, March 2." In part it is as follows: "I wish to inform the public that I am not a fugitive from justice, but a fugitive from injustice, and so I intend to stay until I am assured of a square deal. I wrote to Mr. Cudahy over three weeks ago offering to give myself up to the officers on condition that Mr. Cudahy and Chief of Police Donahue would see that I got a square deal. I am only too willing to give myself up for I am innocent, and, facing justice, I have nothing to fear." The chief of police has handed to Steve Crowe a letter promising to afford Pat protection if he surrenders.

Supplies For Polar Expedition. Chicago, March 5.—After figuring with every large food manufacturer in the country, Lieutenant Evelyn B. Baldwin closed a contract with a local packing company for the entire supply of food for the Baldwin-Ziegler polar expedition, which will sail in the spring. The order was the largest ever given for a polar expedition and will consist of about 200 tons of especially prepared food, all condensed to the smallest possible limit in space. Its value is between \$50,000 and \$60,000.

Incident Closed. Cape Haytien, March 5.—The Dominican consul at Cape Haytien, who has returned here from the frontier, said that the Haytien-Dominican incident at Dajabon was closed, that the Haytien government had consented to withdraw its troops from the frontier, and that a special commission appointed by the two governments would repair to Port-Au-Prince on a Dominican warship to settle the matter, the two countries meanwhile withdrawing their troops from the frontier.

After the Fogs. Galveston, March 5.—Judge Allen of the criminal court made a statement to the grand jury on the law relating to prizefighting. The petition for a writ of habeas corpus in the case of Joe Choyneki and Jack Johnson, charged with prizefighting, was withdrawn, and the case was sent before the grand jury. A large number of witnesses have been summoned to appear before the grand jury and testify in this case.

Bookkeeper's Anger. Chicago, March 5.—Charles Morrill of C. A. Morrill & Company, tea merchants, was shot in the back of the head and injured here by John Corea, a bookkeeper, who then committed suicide. The shooting is said to have been caused by a dispute over the firm's books, following a rebuke Mr. Morrill had given Corea. The bullet inflicted a severe but not fatal wound, but Corea, thinking he had killed his employer, turned the pistol on himself.

## Spanish Cabinet.

Madrid, March 5.—Senor Villaverde declined to form a cabinet of concentration owing to the impossibility of agreement between the various monarchist groups. When he tried to form a purely conservative ministry the deputies, by a majority, considered the task to be Senor Sivela's in his quality of leader of the party. It is stated that the queen regent will next consult Senor Valdeora, president of the senate.

## Pool Selling Permitted.

San Francisco, March 5.—The board of supervisors of this city and county finally passed an ordinance permitting racing with pool selling on the grounds where the course is situated for 20 days in each year. This will allow the immediate reopening of the Ingleside track, now controlled by the San Francisco Jockey club, of which Prince Poniatowski is president.

## Bell Saved Him.

Tiffin, O., March 5.—Kid Moore of this city and Freddy Green of Toledo, featherweights, fought a 10-round bout before the Tiffin Athletic club. The bell saved Moore in the sixth round, otherwise the bout was very evenly contested. Squirrel Flunerty was the referee.

Many Injured

In the Accident Along With T. A. Flynn,

A Brother of M. B. Flynn, Living on West Vine Street.

A Newsy Bunch of Notes Gathered Up in the Large Area Lying South of the Ottawa River.

M. B. Flynn, of west Vine street, returned yesterday from Benton, Ind., where he went several days ago on account of the serious injury of his brother, T. A. Flynn, who was badly hurt in a railway accident on the Wabash road. A passenger train running sixty-eight miles an hour was thrown from the track, by the displacement of a rail, which precipitated the rapidly moving train down a thirty foot embankment. Mr. Flynn, who is a baggage master, was aboard destined for South Dakota on business when the train was hurled down the decline, being penned in for over an hour by the overturning of the coach in which he was riding before rescued with others. He had several ribs broken, a deep gash cut in the back of his head besides sustaining internal injuries which it was at first feared would prove fatal, but he is now considered out of danger. About thirty other passengers were terribly injured in the wreck being cared for by persons in the vicinity of Benton, a small town between Millersburg and Coshen, Ind. Fortunately none were killed by the awful accident.

Mrs. Roberts, who has been in the care of specialists, and underwent an operation at the Presbyterian hospital at Cincinnati, has been much benefited; being able to return to her home on south Elizabeth street.

Among those who witnessed the presidential inauguration and attendant ceremonies at Washington, D. C. yesterday, were Doctor A. S. Rudy and daughter Miss Lenna, of south Main street, who are visiting in the national capital.

## SANURY Removes Gravel

A quite extended experience tells us that gravel is a much more common disease than is generally thought. It is usually diagnosed in its early stages, but it is not properly treated until it has reached a stage where it is almost impossible to cure. All backaches should cause us to be suspicious, and cause us to carefully examine the urine, which will exhibit symptoms of gravel. Often the urine upon being allowed to stand for a time will deposit a reddish sediment into vessels containing it, or the presence may be indicated by more or less pain at least upon the passage of the urine, caused by the scratching of the crystals of uric acid, which through microscopic abundance in the urine of some patients. This condition of the urine is likely to irritate the bladder as to set up a violent cystitis or inflammation of the bladder, entirely due to the excess of uric acid. Sanury is certain to cure this condition, dissolving the uric acid and curing the kidneys which are at fault.

## NEW BREAD AT PARIS.

From Fresh Flour and Greatly Increased Nutrition.

Among all the exhibits of bread and bread-making at the Paris exhibition the one which interested me most was a system of milling and baking combined. It is well known that all food substances when ground to a fine powder have a tendency to become oxidized. As is the case with coffee, which is the best when freshly roasted and freshly ground, so it is with cereal flour, which never so aromatic or so nutritious as at the moment when it is first made. The Schweitzer system, in regard to the milling operations, is a return to the old system of millstones, with the exception that corrugated steel grinders take the place of the millstones of the olden days, says the Paris Messenger. These grinders are so accurately adjusted as to admit of the making of the finest flour, while avoiding actual contact of the two grinding surfaces. The simplicity of the apparatus, the cheapness and the ease with which it can be installed commend this system particularly for domestic use and for the supply of villages and small communities. Nevertheless, it is capable of being operated on an extensive scale, as is demonstrated by the large establishment at La Villette, Paris, where more than 100,000 pounds of bread are made per day from flour not more than 24 hours old. Chemical analysis shows that the flour made according to the Schweitzer system has more than twice as much phosphoric material as that made by the ordinary roller process. The importance of this fact in respect to nutrition should not be lost sight of, and we must admit that nutrition, not whiteness of color, is the principal object of bread-making.

## Miss Palmer Died of Hysteria.

A post-mortem examination of the body of Miss Marie C. Palmer, who died at her home, 3115 Brantley place, disclosed the fact that her death was due to hysteria, says the St. Louis Globe-Democrat. The case had created considerable interest among the physicians. Dr. H. B. Logan of Garrison avenue and Gamble street had treated her for three years, but at no time did he consider her condition serious. He said: "Miss Palmer's case was certainly an unusual one. People have become accustomed to regard hysteria as a harmless disease, but it does kill occasionally, and this is one of the times that the curious thing that the post-mortem revealed was the well-nourished condition of Miss Palmer's body. It seems peculiar that a person could be in such condition after an illness of three years that resulted in her death, and yet in a disease of that character it is not so unusual, for the patient would naturally be petted and pampered." Miss Palmer was the daughter of W. C. Palmer, a foundryman.

## British Paternalism.

That the British empire looks after its children the world over is well illustrated by the fact that the crown agents for the colonies are inviting tenders for the supply of four sailing ships, or three steamers, to carry Indian emigrants from Calcutta to Fiji. It is the annual trip of coolies to the Fiji colony, there to work in the plantations. The paternal Indian government takes complete charge of the affair. The coolies are recruited up country, brought to Calcutta and placed in charge of the officer of emigrants for a fortnight or so, in order that weaklings and those developing disease may be weeded out. Then they are shipped to Fiji or Demerara or other West Indian colonies in government controlled ships and indentured to the planters for five years, the government fixing the rate of wages, the hours of labor and the conditions of life.

## DEMOCRATIC PRIMARY ELECTION.

The qualified voters of the Democratic party of Allen county, Ohio, are hereby notified and requested to assemble at the usual voting places on Monday, the 1st day of April, A. D. 1901, and then there vote by ballot for a nominee for the following county offices to be elected at the November A. D. 1901 election, to-wit:

One candidate for Representative.  
One candidate for Sheriff.  
One candidate for Treasurer.  
One candidate for Commissioner.  
One candidate for Infirmary Director.

One candidate for Coroner.

And also at the same time and place, and in the same manner vote for one candidate from Allen county (if any there be) for the purpose of determining Allen county's choice in the District Conventions for the following district officers, to be elected at the November A. D. 1901 election to-wit:

One candidate for Judge of the Court of Common Pleas, and one candidate for State Senator.

The following rules have been adopted by the County Central Committee of said county for conducting said election:

First. The said primary election shall be held in each of the several townships, wards, and precincts within the county as near the usual voting places as can be, on Monday, the 1st day of April, A. D. 1901, between the hours of 5:30 o'clock a. m. and 5:30 o'clock p. m., standard time, and said primary election shall be held under the Australian Ballot Law, so conducted as to fully comply with the requirements of a resolution to that effect adopted by the Democratic County Convention held at Lima, Ohio, in April, A. D. 1897.

Second. The Central committee-men of the townships, wards and precincts shall designate two persons to serve as judges, one of whom shall be appointed the presiding judge, and one clerk of said election, for each precinct under their supervision, and shall on or before noon of March the 23d day, A. D. 1901, submit the names of the persons so appointed as judges and clerks to the secretary of the Central Committee, and the persons so appointed, shall on or before noon of March 30th, A. D. 1901, take and subscribe an oath that they will honestly, faithfully and impartially discharge their said duties and a true count and correct return make, of all the votes cast at said election. In case of the absence or in case of vacancy from any cause in either or both of said offices of judge or clerk, the Democrats present at the polls at the time for opening may select someone of their number to serve in the place of such absent judge or clerk, who shall first take the oath of office herein before prescribed, and thereupon be entitled to discharge all the duties of his said office.

Third. The following persons shall be deemed qualified and entitled to vote at said election: (1). All those who are known to be Democrats; (2). All those not known to be Democrats, who will pledge themselves to vote the entire Democratic ticket at the November, A. D. 1901, election; (3). All those who are not yet entitled to vote, but who will be entitled to vote at the November, A. D. 1901, election, who will pledge themselves as above.

Fourth. The judges and clerks of said election shall keep a correct poll-book which shall contain the names of all persons voting at said election, and they shall immediately after the closing of the polls and in the presence of such person or persons as may produce a certificate from any candidate for a county or district office showing that he or they have been selected to serve as an inspector on behalf of such candidate, proceed to count the ballots cast at said election and make a correct tally sheet of the same as at general elections, certifying at the end thereof the exact number of votes cast for each candidate, after which they shall sign and seal up such poll-books and tally-sheets and indorse the same to the chairman of the Central Committee and the same together with all contested ballots and ballots voted and unvoted delivered to the presiding judge whose duty it is hereby made to return the same to the chairman of the Central Committee not later than 10 o'clock, a. m., on Tuesday, the 2d day of April, A. D. 1901.

Said judges shall further upon demand made thereof by any one or more of the persons so appointed inspectors as aforesaid, make out and deliver to each such inspector so demanding the same, a true and correct statement of the result of such election in their precinct.

Fifth. The delegates elected to the county convention as hereinafter provided shall meet at the assembly room of the Court House in Lima, Ohio on Tuesday, the 2d day of April, A. D. 1901, at 10 o'clock a. m., and after having duly organized, shall proceed to open and canvass the returns of said election, and the candidate for county office having received the greatest number of votes shall be declared to be the nominee for the office for which

he is a candidate; and the candidate for district office having received the greatest number of votes shall be declared to be the unanimous choice and candidate of Allen county for the office for which he is a candidate, and by reason of said election under the resolution adopted by the county convention in April, A. D. 1897, be entitled to the unanimous vote of the Allen county delegation in such district convention, for nomination unless released from so voting by said candidate.

Sixth. Any and all Democrats desiring to be candidates for any of the foregoing county or district offices, will cause their names to be handed to the secretary of the Central Committee, on or before 3 o'clock p. m., of Saturday, March 16th, A. D. 1901, and then there pay or cause to be paid to said secretary the amount assessed against them by the Central Committee, to defray the expense of such election. All such candidates will be further required to do and perform such other matters and things as the Central Committee, having regard for party good, may by resolution require of them.

The name of any candidate not paying such assessment or otherwise refusing to comply with the rules adopted by the Central Committee, will not appear upon the ticket.

Seventh. The Central Committee will on Saturday, March 30th, A. D. 1901, furnish and deliver to the persons appointed and qualified presiding judges as aforesaid all necessary tickets, poll-books and tally-sheets. Tickets shall be printed on yellow paper. No tickets shall be given out to any person by the judges or clerks of said election until after the polls have been regularly opened, and but one ticket shall be given to any one voter, except that when the voter has improperly marked or mutilated the ticket handed to him he shall upon surrendering the same to the judges be entitled to receive another ticket, and so on until he has received three tickets, but no more than three tickets shall in any case be given to any one person.

Eighth. It is hereby made the duty of the several judges of said primary election to see that strict secrecy obtains throughout in the conduct of said election; that every voter mark his own ballot, except in the case of persons who are unable to read in which case it is made the duty of the judges to assist such voter; that no person or persons be permitted to remain in the booth or behind the guard rail for a longer period of time than five minutes; that no person or persons after having voted be permitted to re-enter the booth or again go behind the guard rail for the purpose of influencing a voter; and especially that no candidate or worker for any of the candidates be permitted to enter a booth or go behind the guard rail, except to prepare and cast his individual ballot.

The qualified voters of the Democratic party of Allen county, Ohio, are hereby further notified and requested to assemble at the usual places of voting on the day of their respective township, ward and precinct caucuses (due notice of the time and place of holding which said caucuses shall be given by the Central Committee, by publication in some Democratic paper of the county, for at least ten days prior to the holding of the same) and then there vote by ballot for the election of such number of delegates to the Judicial, Senatorial and County Conventions for the year 1901, as such township, ward or precinct may be entitled to under the appointment hereinafter made, and at the same time and in the same manner vote for the election of a member of the County Central Committee.

All Democrats desiring to be candidates for delegate to any of the district or county conventions, as also all Democrats desiring to be candidates for member of the Central Committee will cause their names to be handed to their present Central Committeeman, on or before noon of the Saturday preceding the day of holding such caucus and it is hereby made the duty of the several Central Committeemen to receive and make note of all the names so presented and to have the same printed on the proper ticket.

The above and foregoing was adopted

ed by the Democratic County Central Committee of Allen county, Ohio, at a meeting held at Lima, on February 9th, A. D. 1901.

Chairman.

Secretary.

## RECOVERIES FROM GRIP.

Mrs. E. I. Masters, at her home in Monitor, Ind., used Dr. Miles' Nerve and Pills to cure after effects of grip.

Mrs. A. B. Lopeer, in the little town of Modella, Minn., used Dr. Miles' Pain Pills and Nerve and Liver Pills and was well in a few days.

President McKinley is slowly recovering from grip and its effects.

George J. Flannery was relieved of the awful pains in his head in fifteen minutes, by the use of Dr. Miles' Pain Pills. Now he is rapidly recovering at his home in Buffalo, N. Y.

Speaker Henderson is again in his chair in the House of Representatives after a severe attack of the grip.

J. C. Helfrey, foreman at the Westinghouse factory in East Pittsburgh, had a severe attack of grip, but he used Dr. Miles' Nerve and Liver Pills and was soon back in his place.

Rev. C. Body was in a serious condition at his home in St. Paris, O., but Dr. Miles' Nerve and Liver Pills pulled him through all right.

## AMERICAN GOODS.

Our Wares Make Inroads in Markets of England.

English discussion of the American commercial invasion continues to grow more pointed and frank, says E. C. McFarland, consul at Nottingham, in Consular Reports. Hardly an issue of the leading English papers appears without reference to American competition in some line. Within the past two years the tone of such articles has become serious, and economic writers are kept busy attempting to find acceptable explanations for American success. Leicester, in this consular district, is the seat of two great industries—the manufacture of boots and shoes and of hosiery (including underwear). A few days ago large quantities of boots and shoes were exported to the United States. Now, not only are there no exports, but enterprising American firms have actually opened retail stores there, while much of the machinery used in American hosiery exports a few years ago were very low. They are now comparatively small, and as shown in previous reports, are constantly declining in volume, and, to cap the climax, American goods are actually selling at retail in this market. As this is the retail home of the British industry, it is not astonishing that such a fact should come as a shock to natural British pride, and that its importance, as disclosing the general trend of trade, should be minimized, and, as a rule, made light of. The leading trade organ—the Hosiery Trade Journal of Leicester—attempting in the following suggestive article in its current number to bring the more serious phases of the matter to the attention of its readers: "The report from the British consul at Philadelphia strengthens the fact that America is making fast strides in the manufacture of hosiery of all kinds, and that in the near future American goods will be met in many markets where same have been up to the present unknown. As such advancement takes place, so will decrease the importation by that country of hosiery goods, and those countries which have in the past supplied America with hosiery will have to find other markets. This is no surprise, for at the present time the exports of hosiery from both Germany and England are nothing like what they were in years past, and, as stated, have the tendency to still further decrease."

## AN HONEST MEDICINE FOR LA GRIPE.

George W. Waitt, of South Gardiner, Me., says: "I have had the worst cough, cold, chills and grip and have taken lots of trash of no account but profit to the vendor. Chamberlain's Cough Remedy is the only thing that has done any good whatever. I have used one bottle of it and the chills, cold and grip have all left me. I congratulate the manufacturers of an honest medicine." For sale by H. F. Vorkamp, cor. Main and North sts.

## At Loyal Crematory in Hall.

The municipal crematory on record is a model establishment, costing \$12,500. The charge for cremating a body is \$5. The mayor, in opening the crematory, said it was a departure from the established lines in municipal enterprise, but that it gave every promise of proving a great public benefit from sanitary and economic points of view.

"I had a running sore on my leg for seven years," writes Mrs. Jas. Forest of Chippewa Falls, Wis., "and spent hundreds of dollars in trying to get it healed. Two boxes of Sanner Salve entirely cured it." No other salve can heal.

## CRIMEAN PICTURES.

The Battlefield Painted by a Prince

Brought \$50 Guinea.

During the Crimean war the royal children drew and painted pictures, which were exhibited at Burlington House, and sold in aid of the fund. The "Battle Field," painted by the clever Princess Royal, brought 250 guineas; "Bertie's" production realized only 5 guineas—rather trying for a boy to be so far behind his sister—while the drawings of the younger children brought 30 guineas apiece. The queen and her ladies spent much of their time in knitting and sewing garments for the soldiers and preparing bandages, while "Bertie" and "Alice," with all the enthusiasm of young girls, longed and even planned to go out and join Florence Nightingale and her noble band of nurses at Scutari. In fact, the sympathy and enthusiasm of the royal children were stirred to the highest pitch, and we find one of the young princes saying to Lord Cardigan, when he returned to Windsor to visit her majesty, "Do hurry back and take Sebastopol, or else it will kill mamma." In opening parliament during this period of national sorrow, for the first time the queen's silver accents faltered here, and the speech from the throne was read by her in broken accents and with tears streaming down her face. "It was a sight never to be forgotten," says one who was present, "for the whole assembly was convulsed with grief; there was scarcely one present who had not the loss of a dear one to mourn." When the melancholy contingents of wounded began to return home, the queen constantly visited the sufferers in the military hospitals, and it having occurred to her that the men would value a token of regard from her own hands, a most pathetic and interesting ceremony took place on May 18, 1855, at the Horse Guards, when she presented war medals to the officers and men disabled, or home on sick leave. Sad-eyed, indeed, was the queen as they filed past her with gaunt forms, pallid faces, and maimed and disabled bodies, but it was beautiful to see how the faces of the men brightened as she spoke kind and grateful words to them.

## ODD EXPERIENCE.

Hunters' Guns Exploded by Lightning in a Storm.

San Rafael dispatch to the San Francisco Chronicle: The storm of this morning in Marin county will be remembered not so much on account of the damage it did as by reason of the weird and startling stories told of the wild freaks. H. Cutlar, proprietor of the Tamalpais villa, near Kent station, and E. McClanahan, his employee, relate an astonishing story of their experience with the lightning. The men were out hunting and each carried a double-barreled shotgun, pointed downward, in the hollow of his foot, and, seeing his companion lying motionless, supposed that the charge from his gun had shot him. Bending over his friend he begged the latter to say if he was shot, but it was some time before Cutlar was able to answer. According to the story of the hunters their escape was marvelous. Both shotguns, the men relate, were split wide open the entire length of their barrels. Both cartridges in each gun were discharged, but the cap of neither. It is averred, showed an indentation. The guns, the hunters declare, were struck by lightning and the men believe they owe their narrow escape entirely to the fact that in protecting their weapons from the rain their hands grasped only the wooden stocks of the weapons. Both men were dressed in oilskins and their theory is that this probably threw off the electric shock.

## French Population Statistics.

The population statistics of last year in France, according to M. Bertillon, the well known French statistician, show the country to be in the same position as a man dying under the influence of chloroform. It is painful, but still it is death. The figures from which this gloomy prognostication is drawn, proves that the births for the year were 10,000 fewer than the average for the preceding decade. The excess of births over deaths was no more than 31,394, although the number of marriages was the largest recorded since 1876. The rate of increase of the French population has been steadily diminishing for some time, and will apparently soon have disappeared altogether. The population of the country does not now exceed 38,000,000, whereas that of Germany, which is rapidly growing, has now reached 51,000,000.

## SAD

And Unexpected  
was the News

Received Here

Of the Death of Mrs.  
I. W. Satterthwait.

Died at Los Angeles, Cal.,  
Last Night and Her Ill-  
ness Was Brief.

No Information Received Here Con-  
cerning the Cause of Death.  
Remains Will be Brought  
to This City.

This morning William McHenry, the well known real estate agent, who has an office in the Metropolitan block received a telegram from Los Angeles, California conveying the sad and unexpected announcement of the death of his sister Mrs Isaac W Satterthwait. The message was signed by J H Woods and contained no information whatever concerning the cause of death.

The news will be a severe shock to Mrs Satterthwait's many friends here a number of whom received letters from her less than a week ago and it was not until she was enjoying good health in her new south western home when she heard from her sister Mrs Satterthwait and were at Catalina island with Mr and Mrs J H Woods occupying the latter's cottage at that popular health and pleasure resort.

Mr and Mrs Satterthwait have been in California since last December 7th. Mr and Mrs Woods, Mr Woods being their daughter and only child and Mr Woods having removed from this city to the southwest on account of ill health and though Mr and Mrs Satterthwait have made their home in California since leaving here the remains of the deceased will undoubtedly be brought to this city for interment.

Mrs. Martha Satterthwait was the daughter of Dr. McHenry who during life was one of the oldest citizens and was the oldest physician in Allen county. She was married to Mr Satterthwait in this city on March 5 1853 and to them was born one daughter Cora, now Mrs. Woods. The deceased is survived by, in addition to her husband and daughter, two brothers, Will McHenry, of this city and Frank McHenry of California and two sisters Mrs Saepler and Mrs McCauley both of whom now reside in Los Angeles.

## FORGER

Captured by John Ryan  
Last Night.

A Stranger Presented a Fake  
Check for \$8.50.

Ryan Discovered the Game and  
Held the Man Until Assistance  
Arrived and Turned Him  
Over to the Police.

Last evening, shortly before 6 o'clock a stranger entered Daly & Ryan's grocery at Main and McKibben streets and after ordering some groceries of Mr Ryan, tendered a check drawn on "Henry Dessel & Co." for \$8.50, expecting to receive the considerable change in cash. He said he did not want the groceries delivered but would leave them and call for them later.

Mr. Ryan did not believe the check to be genuine and his fears were confirmed when he went out pretending to be in search of change and telephoned to The Dessel Wenner Co. that name being the correct title of the firm. Mr Ryan telephoned for an officer and then returning to the grocery tried to detain the fellow who became very anxious to get away and finally Ryan was forced to grapple with him to prevent him from escaping. Mr Daly arrived in time to lend assistance and the stranger was then turned over to officer Nienbrecht. He gave his name as Frank Pace and is thought to belong in Piqua. He will be arraigned before the Mayor this evening.

## GUSHER

At Beaumont is Saved  
from the Fire.

Flames Are Under Control  
and Danger is Over.

Some Cleveland, Ohio, Capitalists  
Will Build a Refinery in the  
Vicinity of the Big Beaumont Well.

Austin, Texas, March 5.—The great oil well near Beaumont which destroyed about 400,000 barrels of oil stored in a lake embracing about 15 acres of area is under complete control and all danger of the great Lucas oil gusher catching fire has ceased.

A Texas Refinery.

A dispatch from Austin, Texas, says Dr. C. R. For and general manager of the Forward Reduction company, of Cleveland, Ohio, stated today that his company would soon begin the erection of a large oil refinery in the Beaumont district for the purpose of refining the crude oil that is being produced there. Half a million dollars will be invested in the enterprise. This company owns about 40,000 acres of land near the great Lucas gusher upon which they will bore a number of wells.

Dr. Forward asserted that his company had just finished making a series of tests of the oil from the Lucas well and that they have found it to be of a much higher grade than has been generally supposed. He says this oil can be refined by a process which his company operates and that an illuminating product can be derived from the product although it is of more value as a lubricating oil.

The tests of this company of the oil from the Lucas well also resulted in two grades of asphalt being obtained from it. One grade is hard and the other soft. Dr. Forward says that this asphalt is 98 per cent pure while the Trinidad asphalt is only 45 per cent pure. As the asphalt from this oil can be easily produced on the reduction process a revolution in the prices of asphalt is predicted as soon as the necessary refineries and reduction works are placed in operation in the Beaumont district. Dr. Forward said that this company would also begin the construction of a large oil refinery in the Bakersfield district in California.

## PROGRESS

Of the Antrim Case Suddenly Interrupted.

Absence of a Valuable Witness for Plaintiff

Makes It Necessary for the Court to Postpone Further Proceeding Until After His Arrival.

An interruption was caused this morning in the progress of the Antrim damage case and the trial has been postponed until Mr. Moyer, a valuable witness for the plaintiff can be brought here from Indiana. It was at first understood that the deposition of Mr. Moyer, who, by the way was the man who cut down the wire after the Antrim boy was killed, would be sufficient, but developments later demanded his presence on the stand and the case will go over until after his arrival.

One of Many.

Mrs. Millie Ann Jackson wants a divorce from her husband Joseph T. Jackson and her petition recites not a few instances of cruelty in addition to the fact that he has deserted her. The facts borne out by the petition on that he marriage occurred in 1880 but the marital storm which has been brewing for several years finally burst asunder in February last and since that time the husband has absented himself from home. The act of desertion is aggravated by the sworn statements that the wife was neglected for days at a time and cruelly beaten by the man who swore to love, honor and obey. In addition to the application for a divorce Mrs. Jackson asked for a restraining order to prevent her husband from disposing of real estate or personal property and further demands the restoration of her maiden name Millie Ann Ho.

## RELIEF

Furnished a Poor Family at the  
Suggestion of Officer Goebel.

Although there were plenty of people present last night to partake of the excellent menu offered by George Lyons in the celebration of his birthday, there was but little more than half the viandas consumed, and when an inventory was made of the remains this morning there was found half of a forty pound young pig bread and side dishes that were more waste. Officer Goebel came to the relief and suggested that there be a donation made to one of several poor families where a widow with a large family of little children would gratefully receive it. A collection was taken up to pay for the delivery and the good things were sent to the impoverished home this morning.

## THIS WEEK

The Baptist Church Revival Will  
Continue.

The revival meetings at the First Baptist church will continue during the week. The service last night was full of interest, it being an experience meeting and it was remarkable to note that among the number who gave their experiences, the majority embraced Jesus in early life. Tomorrow night the subject will be, "Jesus the Good Shepherd." To be delivered by the Pastor, Rev. Deer, and those who attend are assured of a cordial welcome and a fine sermon. The interest in these meetings has become warm, and full of the spirit, as manifested by the attendance, and God's spirit is working among those who know him not, and a number have expressed their desire to follow Jesus. "Come thou with us, and we will do thee good for the Lord hath spoken well concerning Israel."

## THE

Old Rumor Must be  
Downed.

Sale of Stock

Once More Revives Sale  
of the C. H. & D.

With the Southern Railway  
Company as the Prospective Purchaser.

A Local Passenger Agent, With  
Statistics in His Brain Calls  
Attention to the Death  
Rate of Passengers.

There was unusual strength in C. H. & D. stock on Third street yesterday and, sales were in large amounts compared with the small transactions that have taken place all along. This, together with the fact that the buying was for some very good people, and people in a position to know what they were about, led to the revival of the report that the C. H. & D. was to be taken over by the Southern Railway company. In spite of frequent denials this report has persistently come to the front, and yesterday it was out again with the stamp of authenticity that the advance and the large purchases in the stock might lead to it. It was stated that the Southern Railway company had an option on the stock of the Cincinnati, Hamilton and Dayton Railway and that all that was holding the deal back was the fact that negotiations have not been completed looking to the lease of the Cincinnati Southern Railway by the Southern Railway company. If the road is leased by the company it is asserted that the deal will at once be closed by which the control of the C. H. & D. will be secured by paying 110 for the preferred stock and 50 for the common. The report has been repeated by President Woodford of the C. H. & D. and President Spencer of the Southern Railway but these denials have been taken as a matter of course especially since it has been said that the lease of the Cincinnati was needed to make the deal go. Until that property is leased nothing would be said about the matter even if the report were true in every detail. The sales of the stock yesterday amounted to 3,365 shares and the prices ranged all the way from 101 to 103. There was not a great deal of stock in the market, and the advance might have been easily accounted for without the story of the supposed sale of the road. The investment demand is said to have taken all the stock offered. The earnings of the road have been very good during the past year so far, and the net earnings for January were \$5,000 ahead of any previous January in the history of the road. February was also good, and the business is said to be keeping up.—Cincinnati Enquirer.

A Good Start.

"Do you know," remarked a local passenger agent this morning "that during the first two months of this year, the number of passengers who have lost their lives as the result of wrecks on Ohio lines is almost three times greater than the entire number killed in the state the whole of last year?"

The astonishing statement, needed but an elucidation expressing surprise, and the agent, who has railroad statistics at his tongue's end, added that the wreck at Kent, O., on the Erie, which occurred a few weeks ago, caused the death of six passengers, while during the entire twelve months preceding only four passengers were killed in the state.

Oldest Active Engineer.

Henry E. Stone, 74 years old, has been in the employ of the Lake Shore company fifty three years, most of that time at the throttle of an engine hauling a passenger train. His home has been in Elkhart, but last week he was transferred to the upland branch, with headquarters in that city, where he is now on the easiest run the company has to offer. Stone never had a serious wreck and never was a life lost through any cause of his. He is an ardent Christian and is free to admonish any one for wrongdoing. The fireman and conductor that made the run with Stone considered themselves safe. Upon four different occasions during this old engineer's experience he has absolutely refused to make a run when asked to do so. He would decline, saying that the Lord did not deem it safe to take charge. Upon

## THE IDLER.

The following advertisement appeared in this morning's edition of the morning paper.

"Wanted, sewing by the day. Enquire at the Gazette office."

Can it be possible that Archie has been driven to taking in sewing to keep "Willie" in funds as he caravans through Mexico?

A new candidate for member of the city council from the second ward was announced this morning. He will run on the Republican ticket, but as he is the most little fellow in town he will certainly be elected hands down. This prospective alderman weighs ten pounds and the manner in which his manager was passing out good cigars today proves that the latter considers him good enough to be a candidate for president. His name? Hasn't any front name yet but his papa and mamma are named Mr. and Mrs. Ed. McCauley.

There will be revival service at the Grace Methodist church tonight at 7 o'clock. The pastor desires to see all members of the League and of the official board. The church society will meet tonight at the close of the service.

Hines & Hyland are making some extensive improvements in the rooms at their saloon and restaurant on south Main street and will establish a beer bottling works in connection.

There has been a movement started by some of the street and railroad crossing watchmen of the city toward having the men of that occupation petition the city and the railroads to relieve them from being required to serve at their posts of duty on Sundays. The salary that these men receive is only a nominal one and to be required to work 365 days in the year to earn it is a hardship. The men claim that there are fewer trains and fewer vehicles passing over the crossings on Sundays and as the danger of accidents is thus lessened the men are unanimously of the opinion that their services could be dispensed with on this one day in each week, permitting them to enjoy some rest and recreation and a day with their families.

## MEETING

Of the Lima Dental Society  
Held Last Evening.

An Interesting Paper Submitted by  
Dr. D. H. Sullivan—Next Meeting to be Held in April.

Last evening the Lima Dental society held a very profitable and interesting meeting in the office of Dr. Gray, in the new Masonic building, and the following members of the society and profession were in attendance: Drs. Irvine, Sullivan, Stutzer, Jones, Hall, McIndoe, Bennett and Gray.

During the evening a very interesting and scholarly paper was read by Dr. D. H. Sullivan on "Our Profession and Our Society." The discussion was an able one and the members in attendance were greatly pleased. The next meeting of the society will be held on the first Monday evening in April at the office of Dr. McIndoe. At this meeting a paper will be read by Dr. Jones.

## WILL INTEREST SMOKERS.

About the Manufacturing and Advertising of Cigars.

Some people think that because a cigar is largely manufactured that it is done at the expense of the cigar and detracts from its merits. But it is not true.

The large advertisements of cigars work on the same principle as other large advertisers, they call the attention of the public to their article and it must have merit or it does not hold them.

The Cigar Manufacturer was advertised largely do a proportionately large business which enables them to sell at a smaller profit. They have greater facilities by having in enormous quantities and securing the cream of the tobacco crop at the lowest prices, which is all for the benefit of the smoker.

The firm of Hirschorn, Mack & Co. is one of the largest manufacturers in the United States, and their Herr George Cigar is strictly hand made and wonderful good. At five cents this cigar would be an impossibility were it not for the advantages above named. Their Tom Moore cigar is also hand made, and of specially selected Havana Fillers and Sumatra wrappers, from their warehouses in Havana and Amsterdam.

In buying direct, they save the middleman's profit, and are able to give superior goods at the lowest prices.
